

PEGASUS at ORIGIN AFRICA 2015

October 21 (Wed.) – 23 (Fri.)
Ethiopia, Millenium Hall, Addis Abeba
< PEGASUS Booth No. A59 >

PEGASUS SEWING MACHINE MFG. CO., LTD. (Headquarters: Fukushima-ku, Osaka, Japan, President: Shigemi Mima), will set up a booth at the ORIGIN AFRICA 2015. This event will be held for three days, from October 21 (Wed.) through October 23 (Fri.) at Millenium Hall, Addis Abeba in Ethiopia.

This exhibition will be held as one of the programs of the Africa Sourcing and Fashion Week (ASFW). PEGASUS, an industrial sewing machine manufacturing company that leads the apparel industry in Japan, will exhibit its products in the Japan Pavilion sponsored by the Japan Sewing Machinery Manufactures Association (JASMA), with the cooperation of the Japan External Trade Organization (JETRO).

We received a government grant from the Ministry of Economy, Trade and Industry, in order to set up our booth at the ASFW event.

At the ASFW, PEGASUS will feature our reliable developmental, technical, and proposal capabilities, which we have fostered for around 100 years.

For details, please see the attached sheet.

《 Outline of PEGASUS booth 》

- Time : October 21 (Wed.) – 23 (Fri.), 2015
- Place : Millenium Hall, Addis Abeba
- Booth No. : A59

■ Models to be displayed

NEW! ● M900 series (photo attached)

Overedgers

- M900 Series, which was developed using all of PEGASUS' state-of-the-art technology, while maintaining cost effectiveness and quality, responds to various needs with a full line of subclasses. High-speed rotation with minimal temperature, noise, and vibration contributes to increases in production.
- Dirt and dust prevention measures strengthened further! Thanks to our excellent oil blocking mechanisms, including a totally enclosed needle bar chamber, with a force-drain function, and other similar features, the M900 series protects your important sewn products from oil stains. The upper looper mechanism includes special functions, so dirt and dust prevention measures have been strengthened further. This machine-friendly feature prevents dirt and dust from getting into the inside of the machine, contributing to an increase in production.

Oil Barrier type, for versatile 3-needle flatbed, interlock stitch machines

- The oil seal attached to various areas prevents oil leakage and oil splashes. This "Oil Barrier" feature completely blocks even one drop of oil leaking from the needle bar and even while the machine is stopped at night.
- Needle bar stroke can be changed easily. So, the machine can sew from light to heavy materials.

W500PV series

* Please note that the exhibits are subject to change without prior notice depending on the circumstances.
