## **【NEW PRODUCT】 Releasing the overedger equipped with a direct drive motor**

PEGASUS SEWING MACHINE MFG. CO., LTD. (Headquarters: Fukushima-ku, Osaka, President: Shigemi Mima) is releasing **the overedger with a direct drive motor** from March 30, 2018 today.

In the past when customers purchased our products, PEGASUS sold sewing machines and motors separately. However, we have now begun the release of machines and motors, sold as a set. Thanks to this sales system, all you have to do is take out the sewing machine and the motor from the shipping container and install them on the machine table at the time of purchase. No burdensome setup work for the motor is needed. In addition, the direct drive motor is our original product, so you will be able to rely on quality and safety.

As the first such product, we will begin shipping the M900 series equipped with a direct drive motor, and we will expand compatible models sequentially in the future.
