

PEGASUS at JIAM 2022 OSAKA

(Japan International Apparel Machinery & Textile Industry Trade Show)

PEGASUS booth Highlights

November 30 (Wed.) - December 3 (Sat.)

Japan, INTEX OSAKA Hall No. 6

PEGASUS SEWING MACHINE MFG. CO., LTD. (Headquarters: Fukushima-ku, Osaka, Japan; President: Shigemi Mima, hereinafter referred to as PEGASUS) will be setting up a booth at the 12th Japan International Apparel Machinery and Textile Industry Trade Show (JIAM 2022 OSAKA). This event will be held for four days, from November 30 (Wed.) through December 3 (Sat.) at INTEX OSAKA in Japan.

At the Pegasus booth we have prepared 4 exhibition corners that introduce 35 products.

The intentions of each corner and highlighted exhibit models are as follows.

New & Neo

Intelligent Factory

Smart Solutions

Automatic units and
Labour saving devices

* State-of-the-art Models

EXneo Series

The EX Series, our flagship model, has been reborn and is now available as the EXneo Series. The basic performance of the EX Series has been updated with improved adaptability to a wide variety of advanced materials. The EXneo Series sews fabric beautifully with the reliability and stable quality of the EX Series.

MXneo Series

The MX Series, one of our representative models, is now available as the MXneo Series. These machines can be fully integrated with electric devices for a variety of enhanced functions and improved performance. The direct drive motor, control box and operation panel have been combined into a single unit with the sewing machine head. In addition, the newly modified appearance is slim and compact.

WX600P Series

Based on the philosophy “Quality, Beauty, Productivity All-in-One” this series pursues ease of operation for people involved in sewing. We have placed on exhibit the pinnacle of our interlock stitch machines, which create top-quality sewn products

* Intelligent Factory ~ Offering more than just sewing machines ~

We have introduced software that enables smartphone to be used as a terminal and have co-ordinated 2 JUKI sewing machines and 3 PEGASUS sewing machines for on sewing-line demonstration at the exhibition. An extremely convenient tool to improve factory workflow efficiency and enhances production forecast accuracy.

* Smart Solutions ~ PEGASUS' sewing machines will solve problems with difficult materials. ~

In this corner, sewing machines that are suitable for difficult-to-sew fabrics are on exhibit.

* Automatic units & Labor-saving devices~ Let's take a bird's eye view of the production site, consider about labor saving and pre-sewing processes~

In this corner, we are providing demonstrations of deskilled sewing operations by automated sewing units and how the fabric is picked up before being placed on them.

Our special exhibition booth at JIAM is now open. We will release further information as it develops. We would appreciate if you could drop by and take a look.
